SWATYCOMET SPECIALHYBRID

Flap discs **SPECIALHYBRID** are flap discs with double flaps and with two different grit sizes.

The combination of coarse grit size with finer grit size extends the duration of the disc and increases stock removal rate.

Flap discs **SPECIALHYBRID** are designed for demanding grinding operations in industry where long life and high aggressiveness are required.

| Name | Quality class | Abrasive grit | Construction steel | Alloy stainless steel | Stainless steel | Alloy | Colour metals |
